STEPS TO GET BRAND, TRADEMARK AND WEB

We Create

We Protect

We Grow

BRAND

SIMPLE STEPS TO GET BRAND AND PROTECTION

GET TRADEMARK FOR YOUR MARK AND COPYRIGHT © FOR GRAPHICS AND CONTENT.

The very first step before starting any services or goods is choosing a right title or Brand. From our experience, we found many brands already exist in government database. It means, very few are aware of IPR (Intellectual Property Rights) or the importance of IPR. Recently on world's biggest online shopping mart, they found many brands are similar, it is difficult for consumers to differentiate the products / services from others. Same is the scenario for tea services in Maharashtra, one brand became famous, maximum have started similar nomenclature and launched their tea setup without IPR, many have distributed franchisee channels. What if, their registration gets refused due to similar title? Again, they need to start branding from zero. Instead of making it complex, simply call **8454 99 55 22** or **9892 012 972**, or visit **tmcertificate.com** we will give the best suitable brand with IPR, logos and websites, everything under single roof, tmcertificate.com a project by seagull experts®. Check Brands and IPR clients on page 3-10

WEBSITES

SIMPLE STEPS TO GO ON-LINE

Before registering the domain, make sure you are choosing the right domain and right extension. Good step at first stage will boost your site with content. Similarly good protected and performance-based server to be selected for hosting. Next is site type, for basic (never changing content), you can prefer static/ html5, else content management system (CMS) based sites are preferred, where user can continuously update or modify the details on site. Example WordPress, Joomla, Drupal. See more examples by **Seagull Experts®** on page: 11-13
